August 14, 2017

To Whom It May Concern,

The Health Wagon would like to thank Carolyn Jenkins and the Jenkins Donelson Foundation for their attendance and recruitment at our Remote Area Medical (RAM) event July 21-23, 2017. In addition, the Jenkins Donelson Foundation provided shoes and foot care supplies that benefited not only patients but volunteers (who had worked long hours) as well.

The Health Wagon is a free clinic, designated as a 501(c)3, located in Southwest Virginia. The Health Wagon coordinates RAM Wise each year, which is the largest medical outreach event of its kind in the United States. RAM provides patients with access to medical, dental and vision services. Services are rendered at no cost to patients. Over 2,000 volunteers provide approximately two million dollars of health care to over 2,500 patients during a three-day period annually.

As part of our medical services at RAM Wise, we make every effort possible to recruit specialty providers, such as podiatrist, so patients are able to receive a full range of much needed services at this event. Without partners like you, we could not do all that we do at our health outreach events.

Thank you again for your partnership and we look forward to working with you in the future.

Many thanks,

A handwritten signature in black ink, appearing to read "Dr. Teresa Gardner Tyson".

Dr. Teresa Gardner Tyson, DNP, MSN, FNP-BC
Executive Director
The Health Wagon
